

USING \$LIFT TOKEN BRIDGE

Step by Step Guide

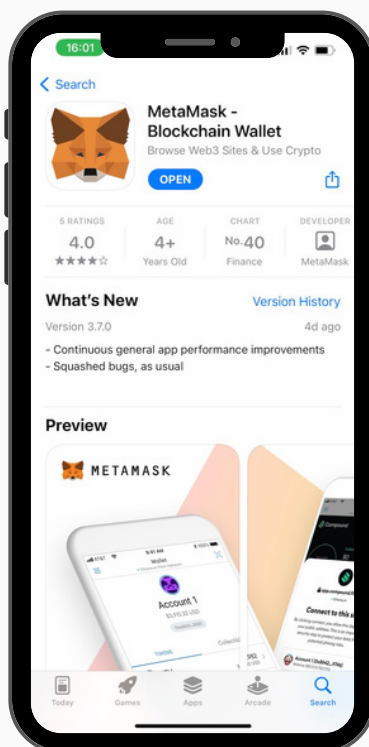

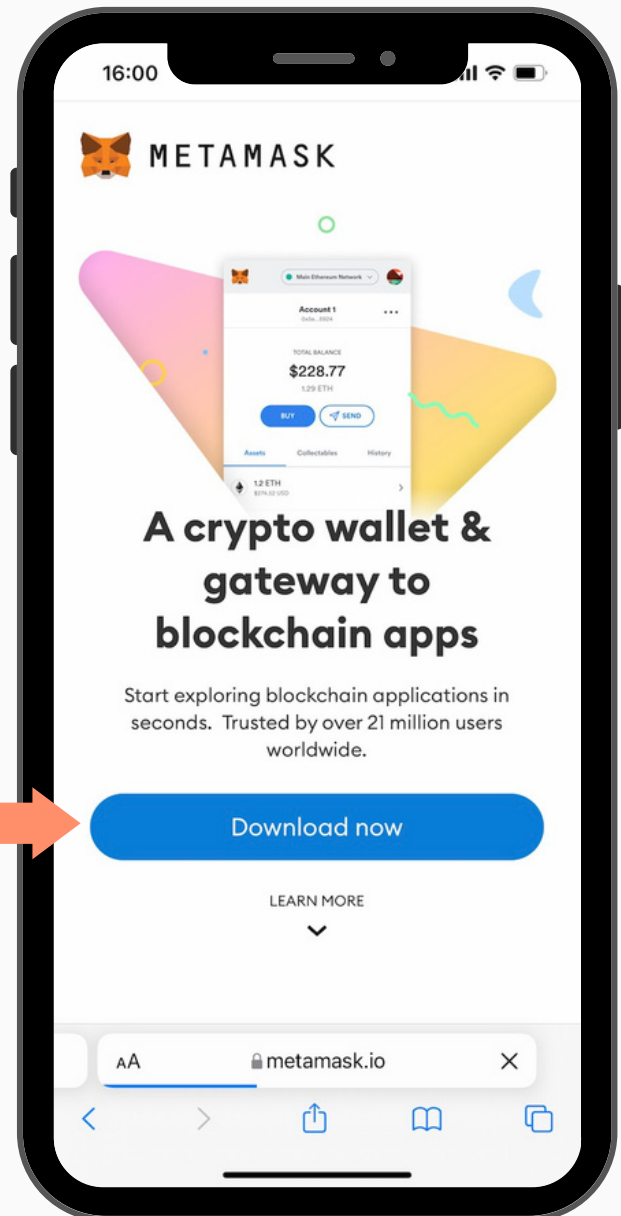

Version 1.23 - 16th Dec 2021

CONTENTS

Step 01:	
Download Metamask App & SetUp	03
Step 02:	
Adding Binance Smart Chain to Metamask	04
Step 03:	
Importing Your TRX Wallet to Metamask	06
Step 04:	
Send BNB to your Metamask Wallet	08
Step 05:	
Adding \$LIFT Token to Metamask Wallet	09
Step 06:	
Bridging \$LIFT (TRC20) to \$LIFT (BSC)	10

Metamask SetUp

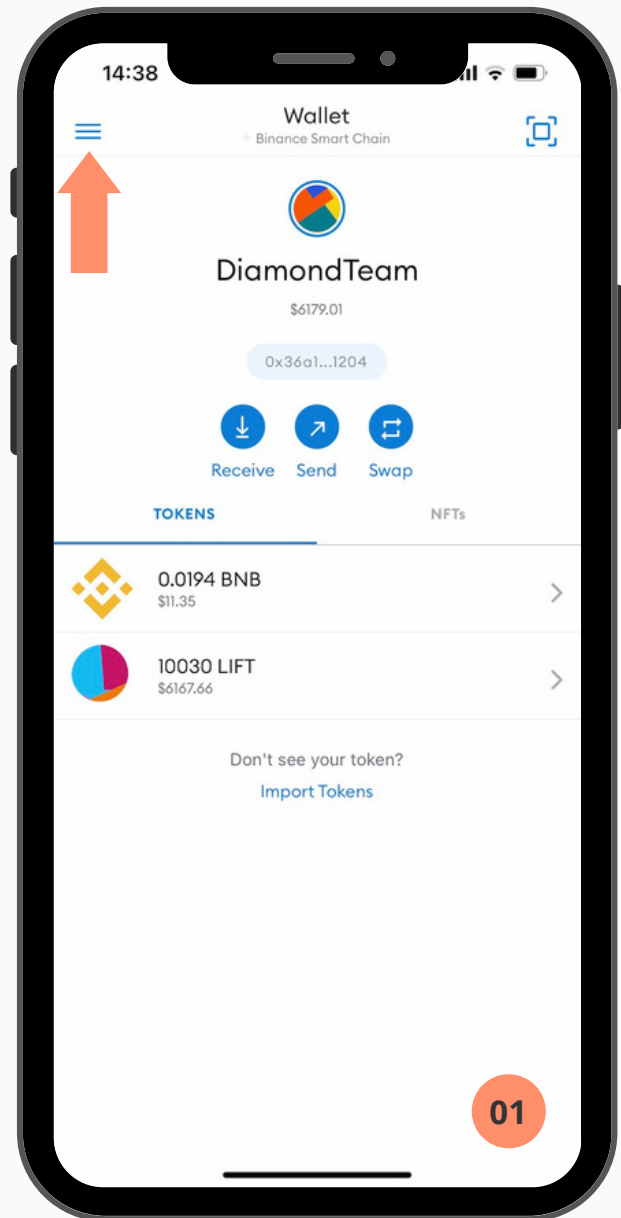

- Go to your Web Browser & Type Metamask.io directly on Address Bar. (Don't click Google Suggestions)
- Download Metamask App (iOS or Android)

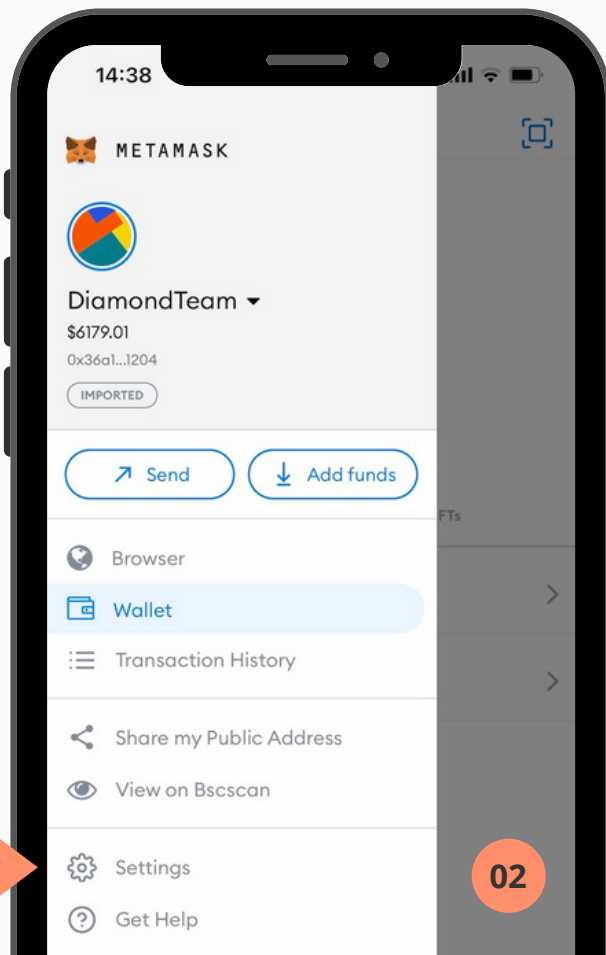

- Create a New Metamask Wallet
- Create a Password
- Write Your 12 Seed Words (Keep it Safely & Securely)
- Confirm.

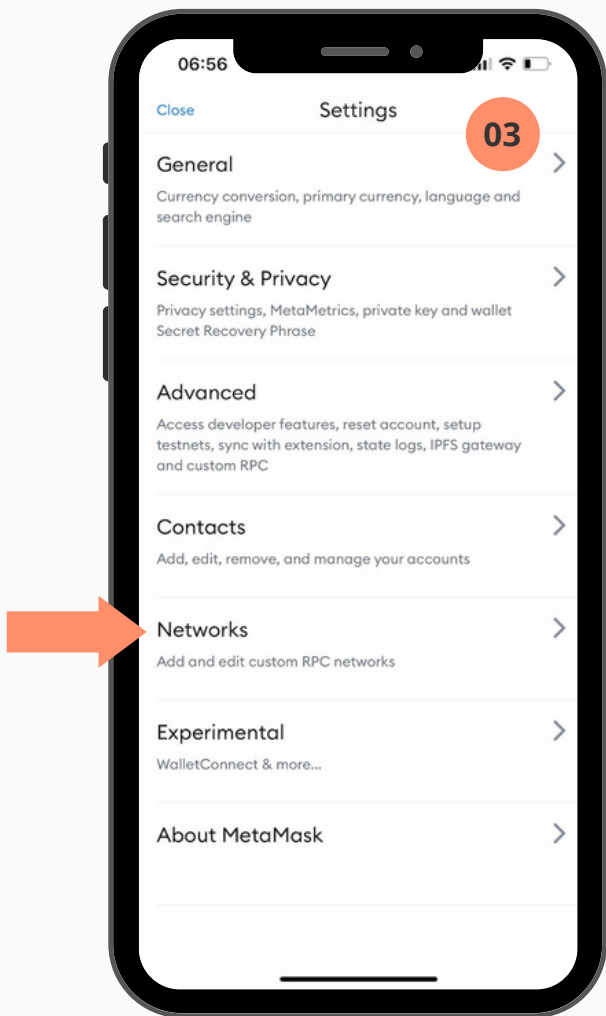

Adding BSC to Metamask

- Metamask is originally an Ethereum Wallet.
- You have to SetUp Binance Smart Chain in Metamask
- Click Top Left ≡ Icon.

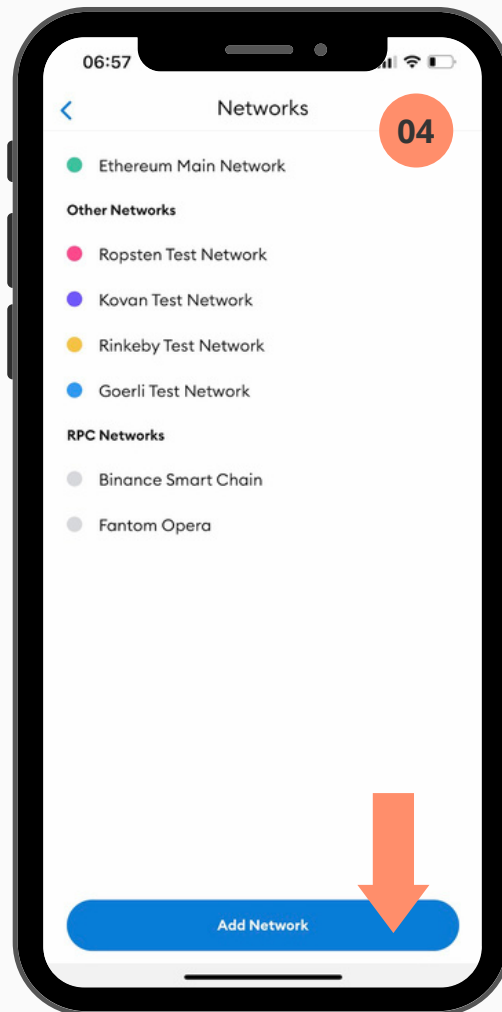

- Click **Settings**

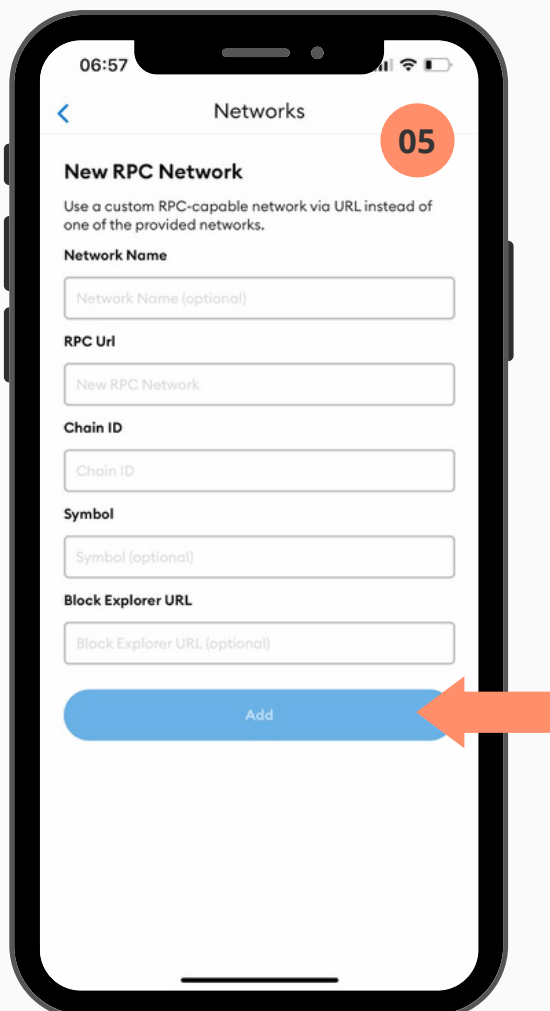

- Click Networks.

- Click Add Network.

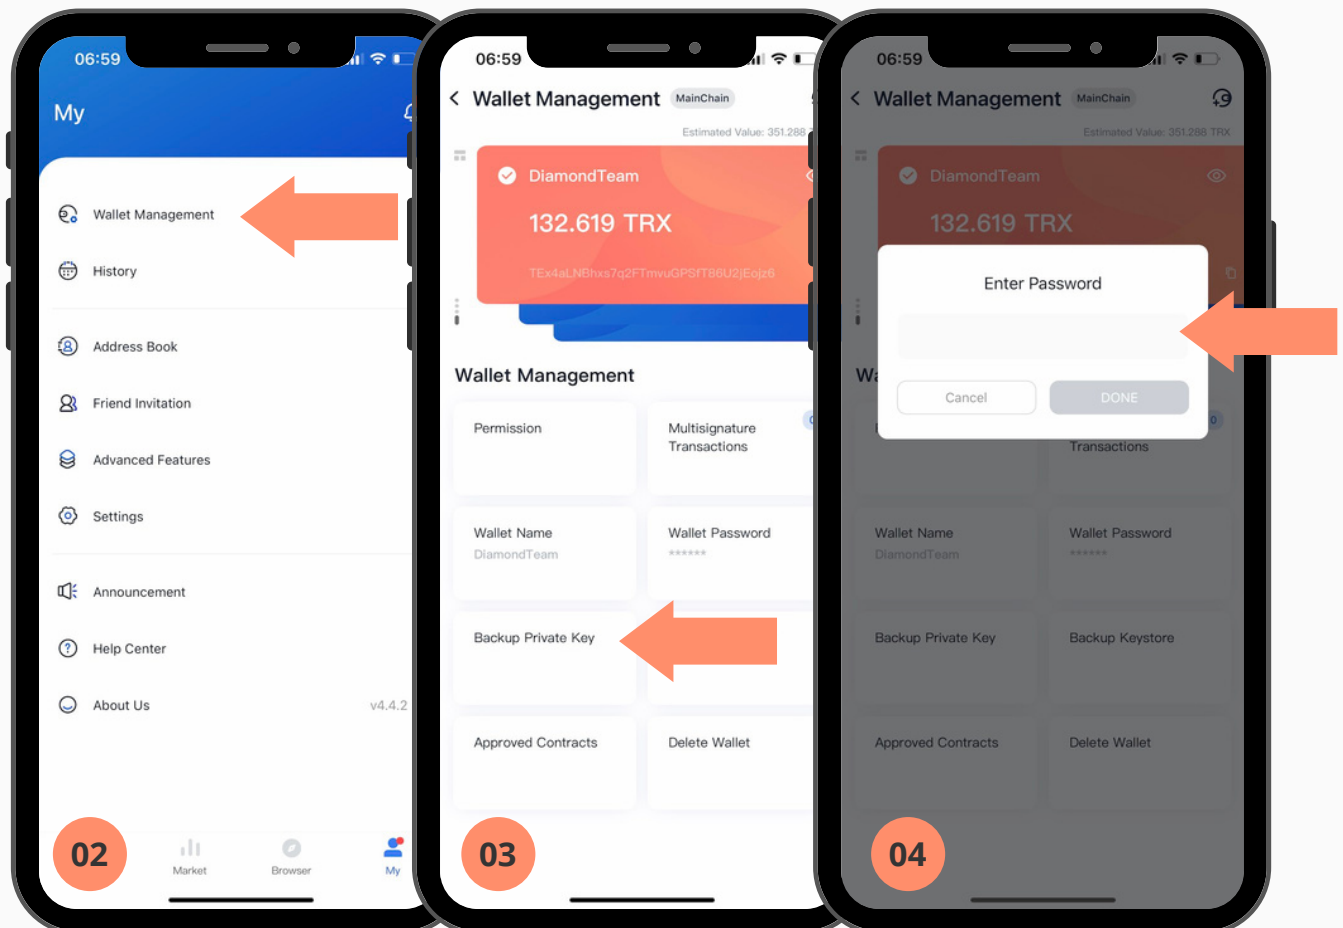

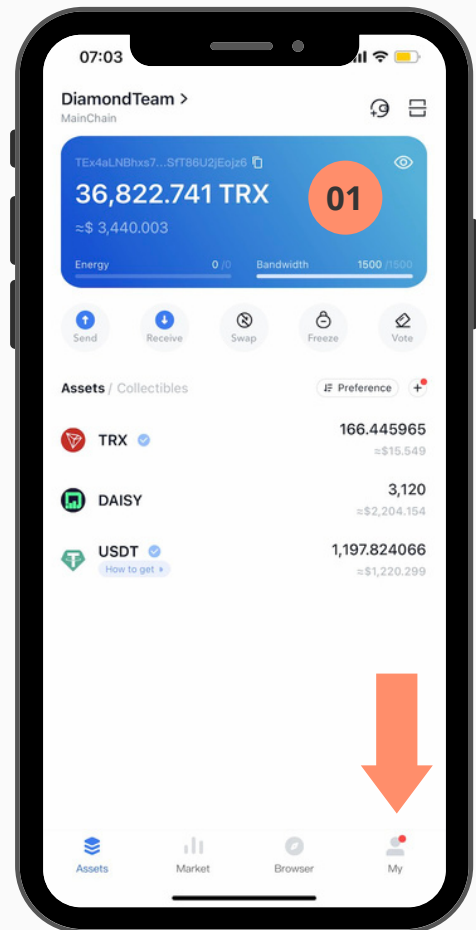

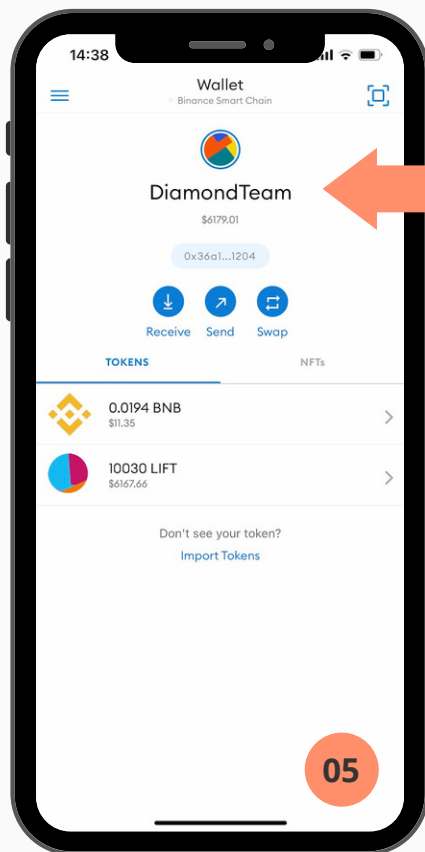

Copy & Paste these Details

- **Network Name:**
 - *Binance Smart Chain*
- **New RPC URL:**
 - <https://bsc-dataseed.binance.org>
- **ChainID:** 56
- **Symbol:** BNB
- **Block Explorer URL:**
 - <https://bscscan.com>

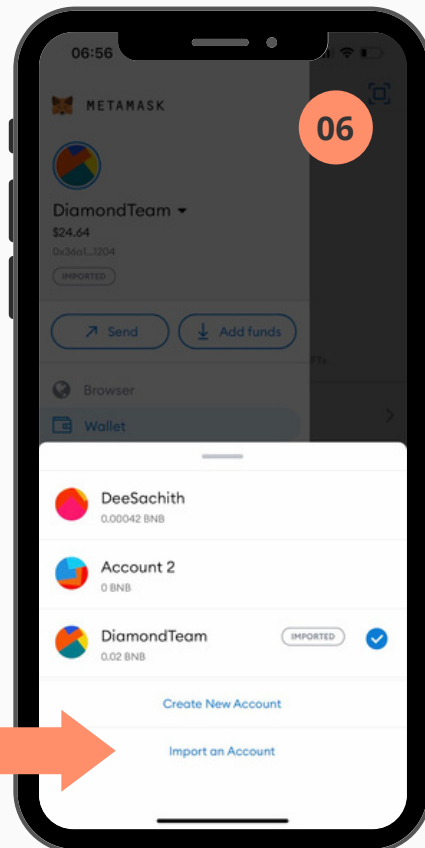

Importing Your TRX Wallet to Metamask

- Let's Copy the Private Key of your TRX Wallet
- Go to My > Wallet Management (*Public Account Management in Android*)
- Click BackUp Private Key
- **Copy your Private Key.**

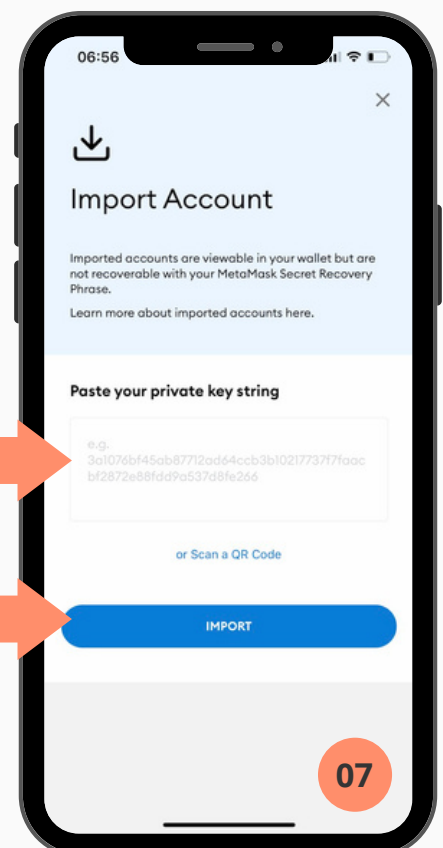

- Now go to Metamask App
- Click **Your Account** (*Account 1*)

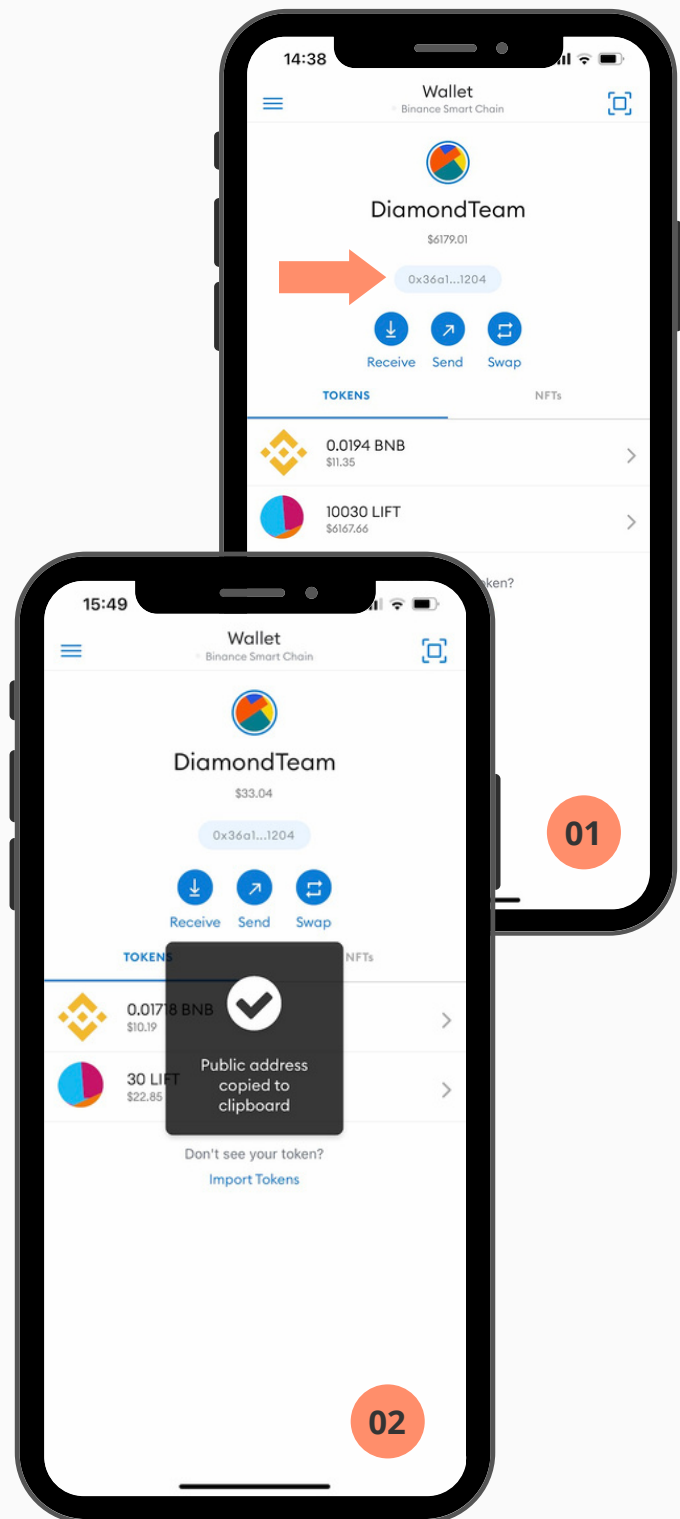

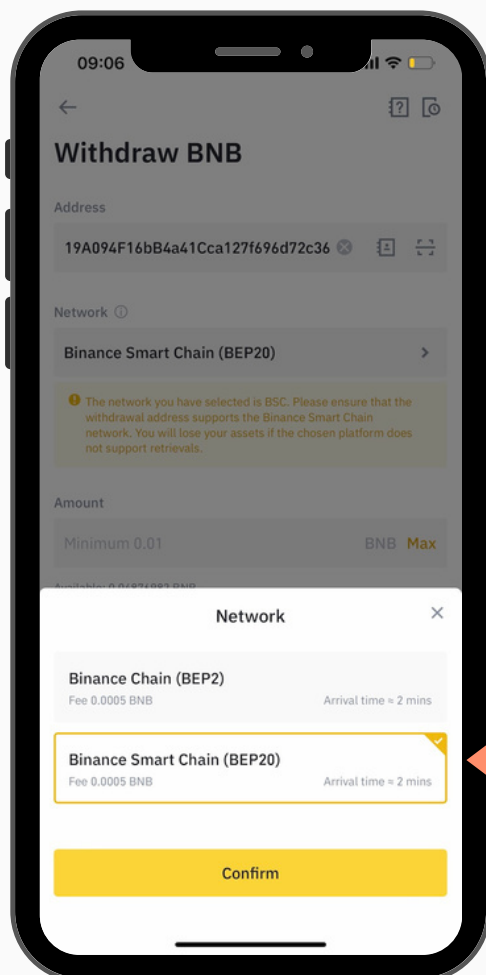

- Click Import an Account

- **Paste Your Private Key** & Click Import

Send BNB (BEP20) to Your Imported Address

- We need BNB for Transaction Costs in Binance Smart Chain.
- Click your BNB Address in Metamask Wallet & it'll automatically Copy.

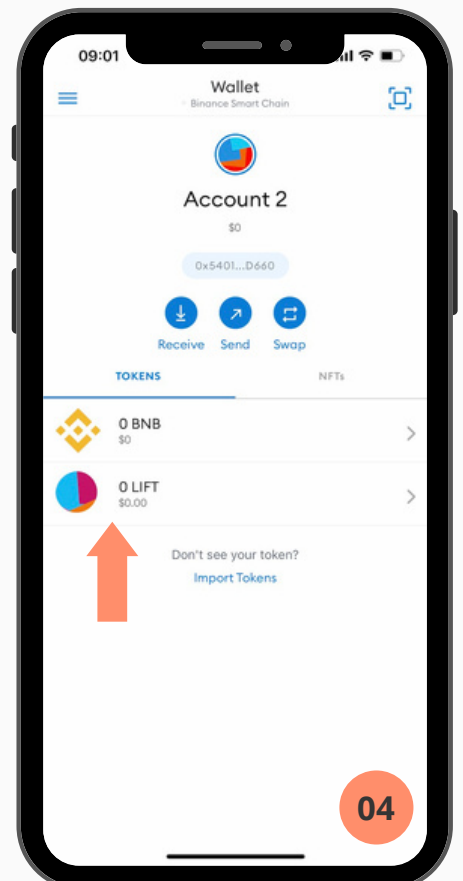

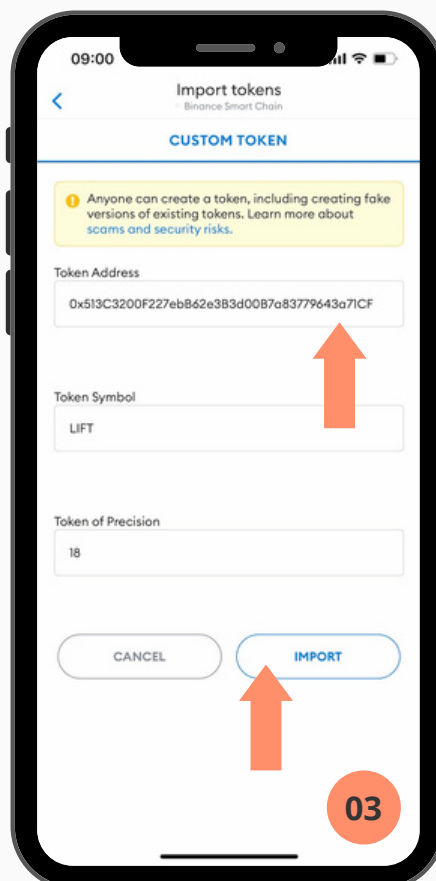

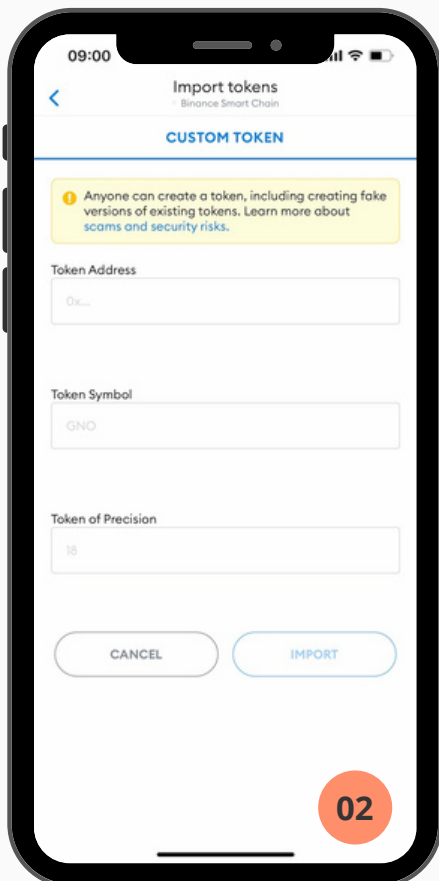

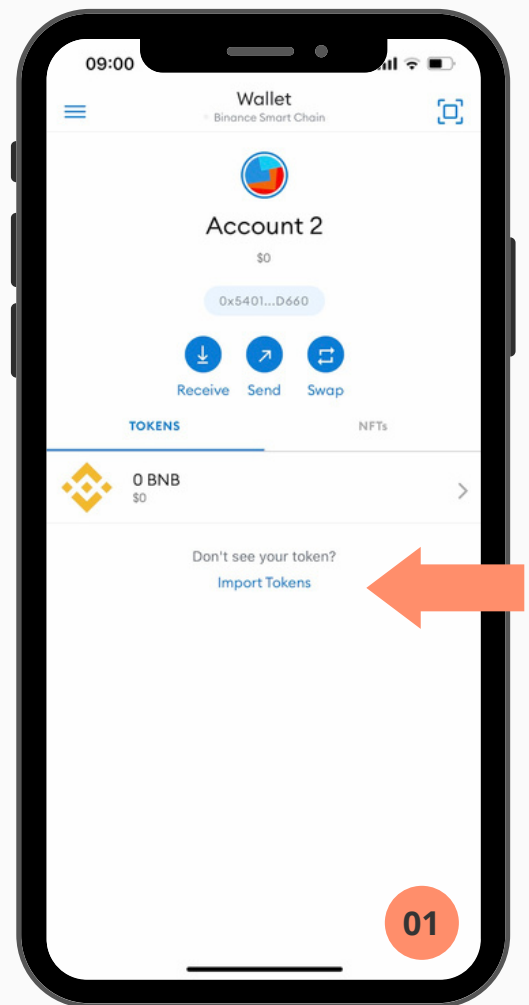

- You need less than \$10 BNB for Transaction Fees
- Send **BNB Tokens (BEP20)** from any exchange you prefer.

Adding \$LIFT Token to Metamask

- Copy \$LIFT (BSC - BEP20) Token Contract Address

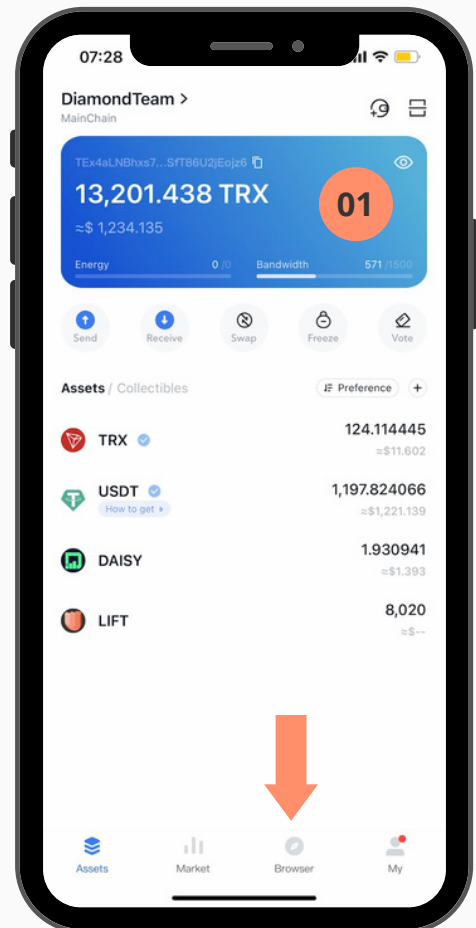

0x513C3200F227ebB62e3B3d00B7a83779643a71CF

- Click **Import Tokens**
- Paste \$LIFT (BSC) Token Address & Wait few Seconds till Token Info Loads
- Click **Import**

Bridging \$LIFT (TRC20) to \$LIFT (BSC)

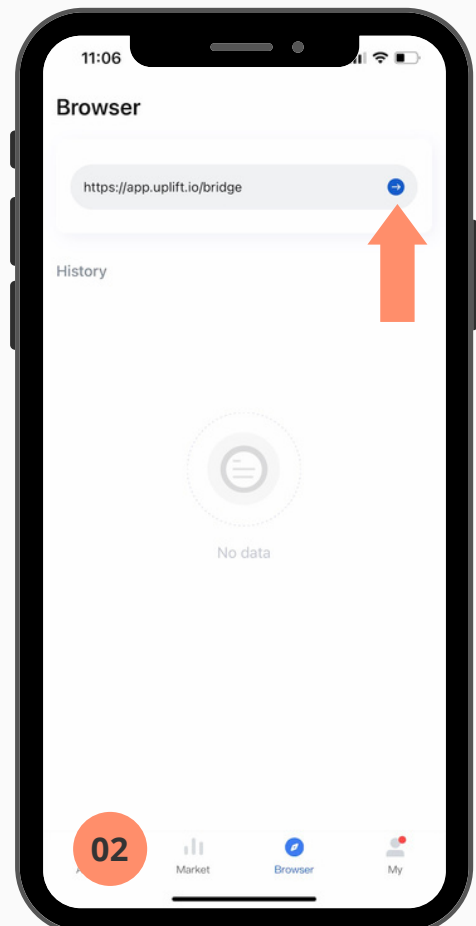

- Now we're going to use the Token Bridge to migrate from LIFT (TRC20) in Tronlink to LIFT (BSC) in Metamask.
- Open Tronlink's DAPP Browser

- Copy this Address

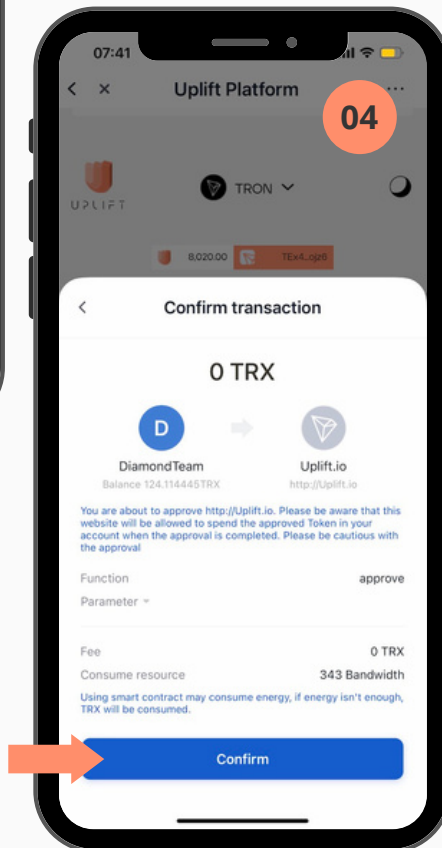

<https://app.uplift.io/bridge>

- Paste on the Address Bar & Go.

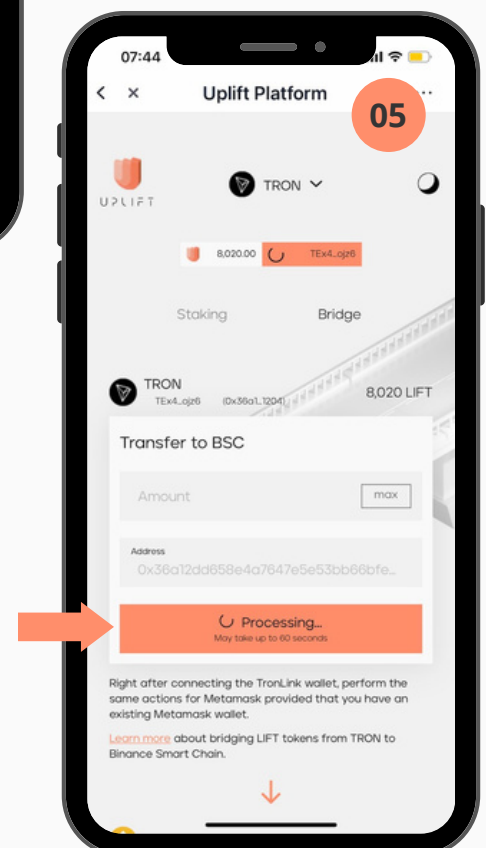

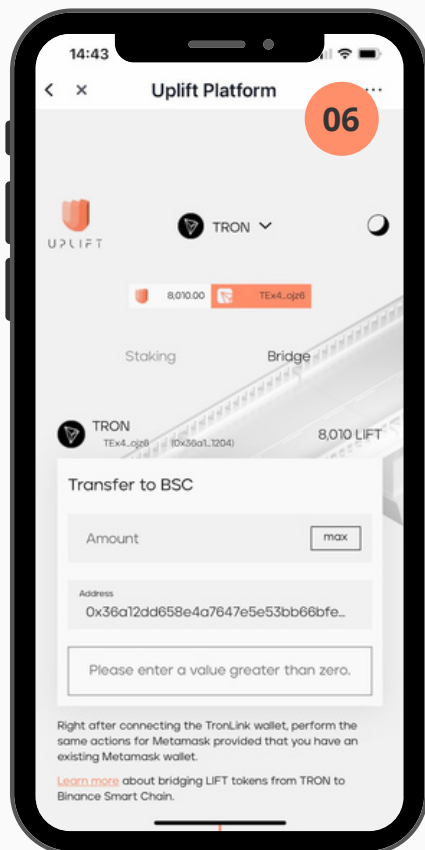

- Select **Tron** from the Drop Down List.
- Type the Amount or Select Max
- Click **Approve**.

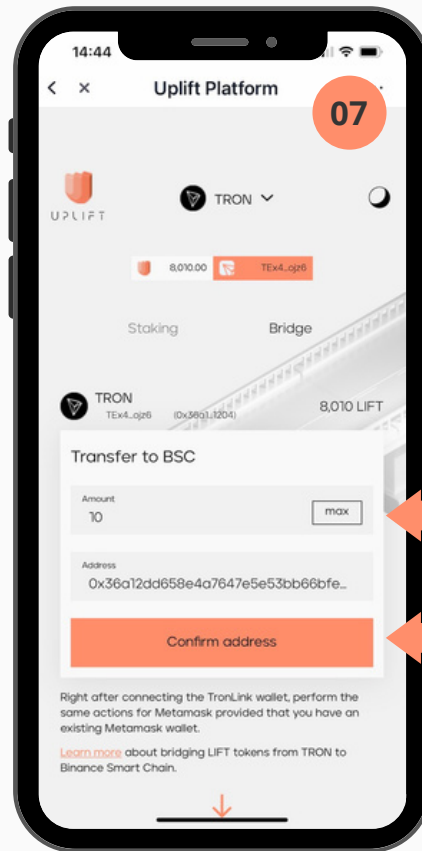

- Click Confirm & Authorize.

- Wait around 60 Sec. till the Blockchain Transaction Processes.

- Then you'll get the same screen again. Don't panic.

- Type the Amount or Select Max
- Click **Confirm Address**.

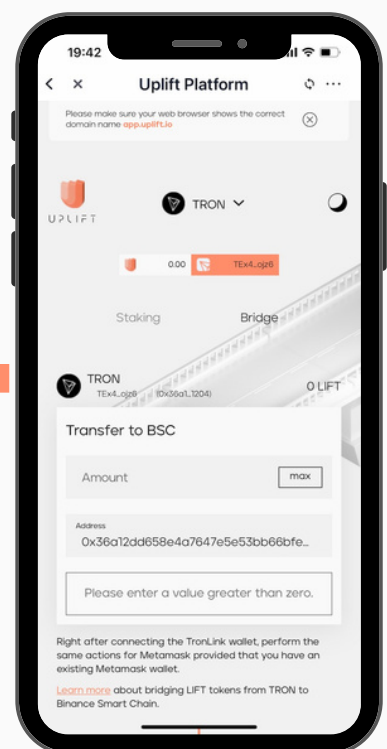

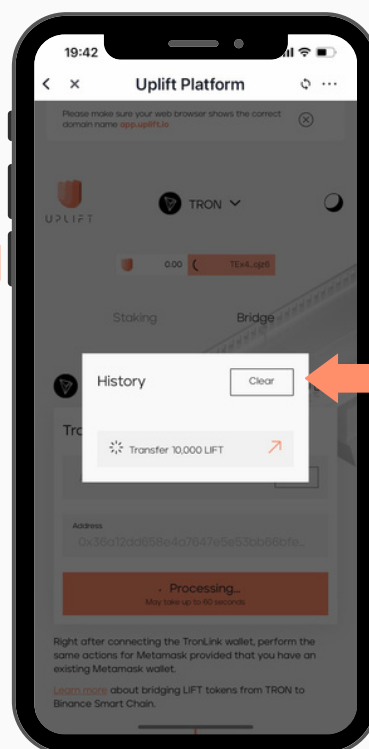

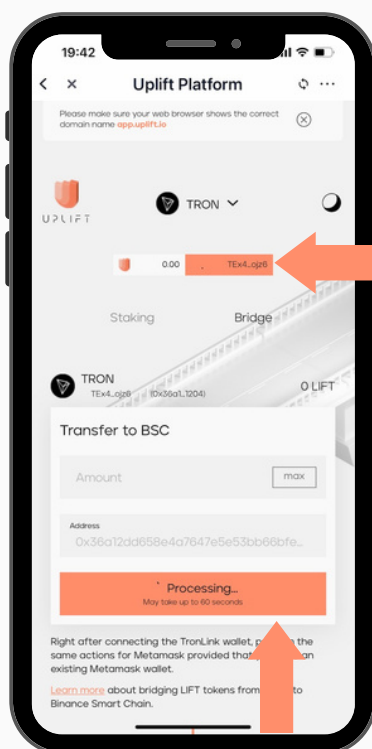

Troubleshooting Guide - (You might need this for Tronlink.)

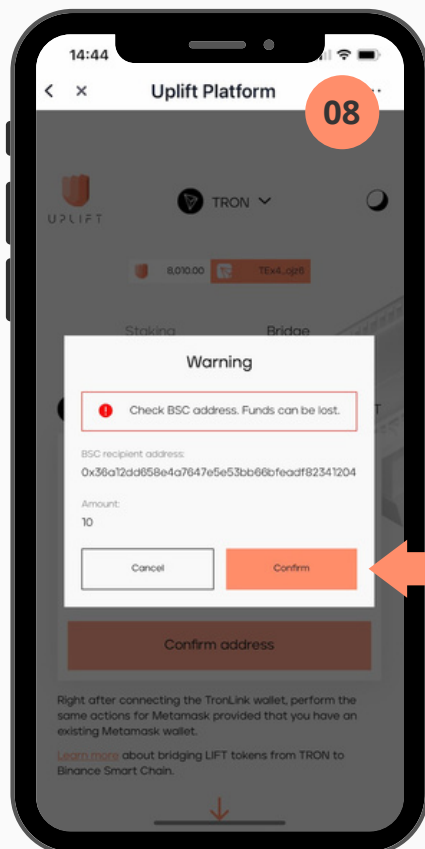

What if it keeps on Processing for a long time?

Click your Address.

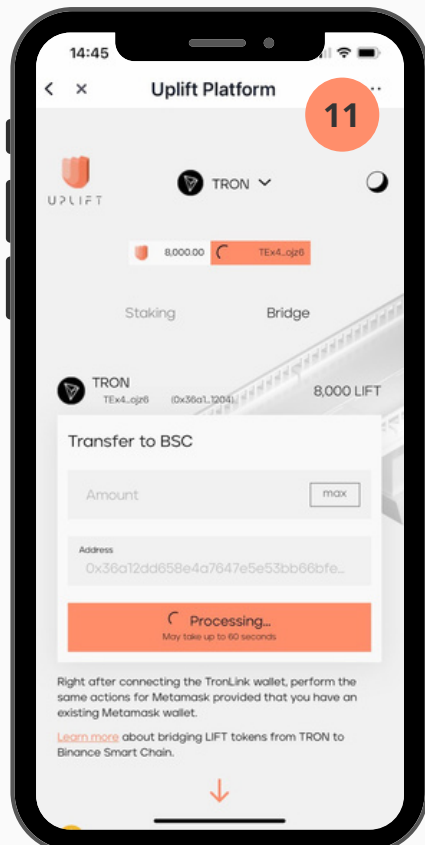

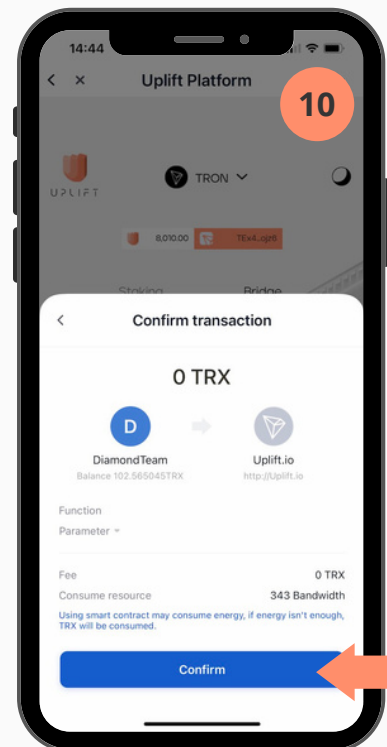

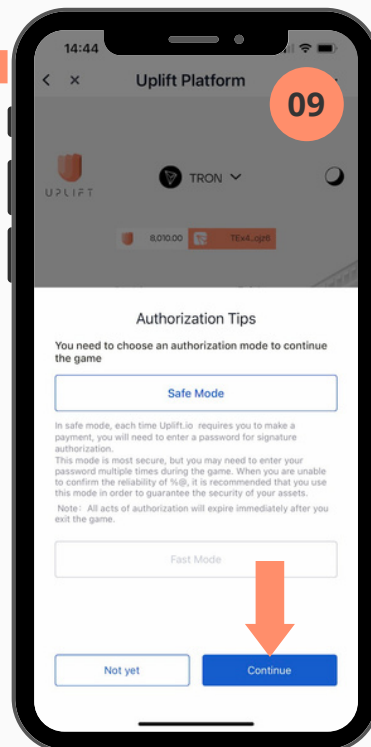

Clear History.

Ta'daa!

- Recheck your Metamask Address & Amount.

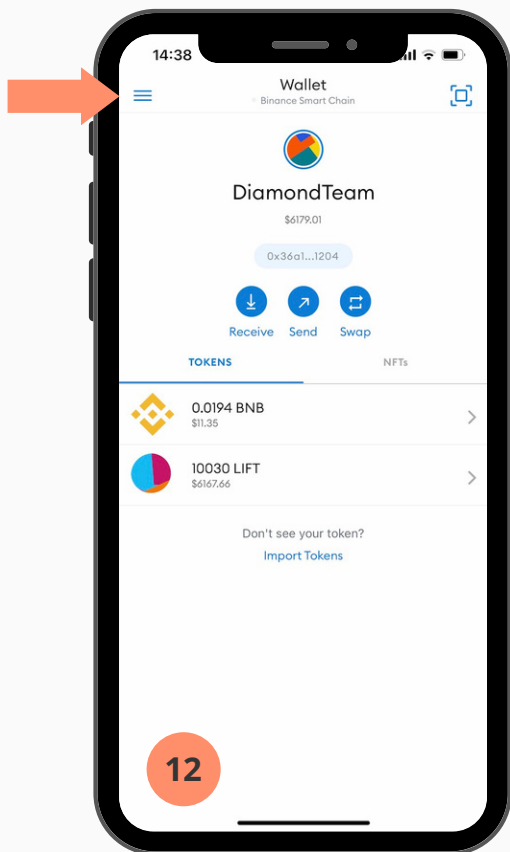

- Confirm, Continue & Authorise.

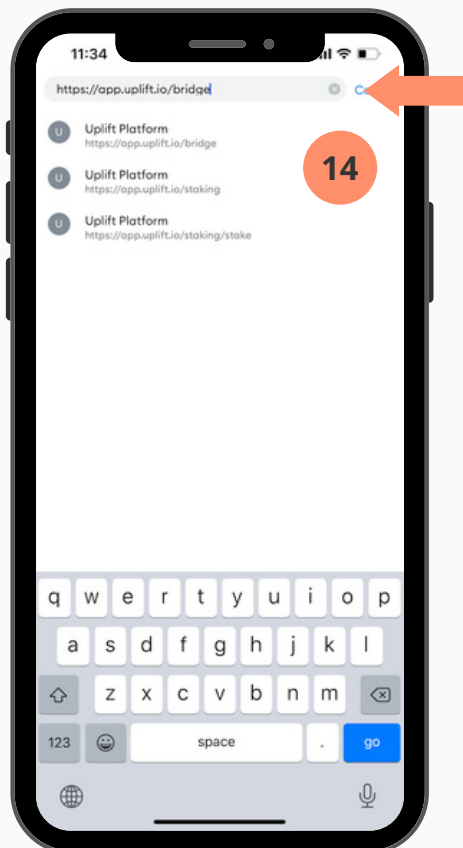

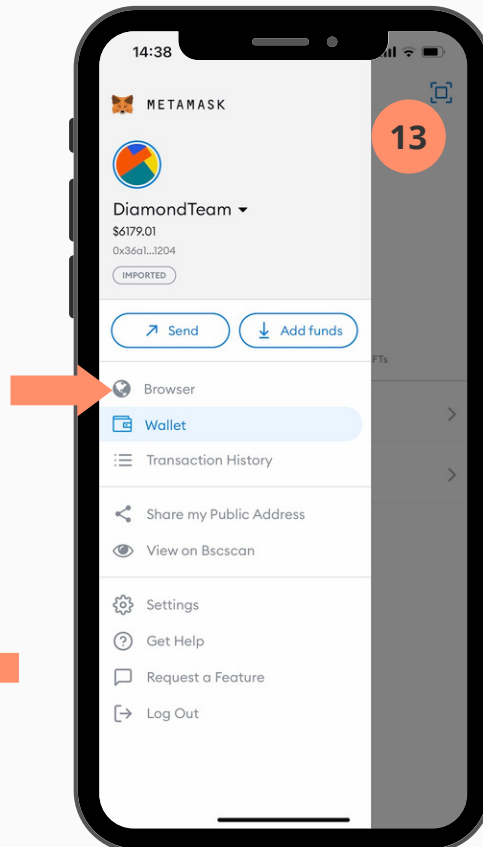

- It'll take 60 Seconds to Process.

- Wait. Clear History if it keeps on Processing.

- Now you can open Metamask App.

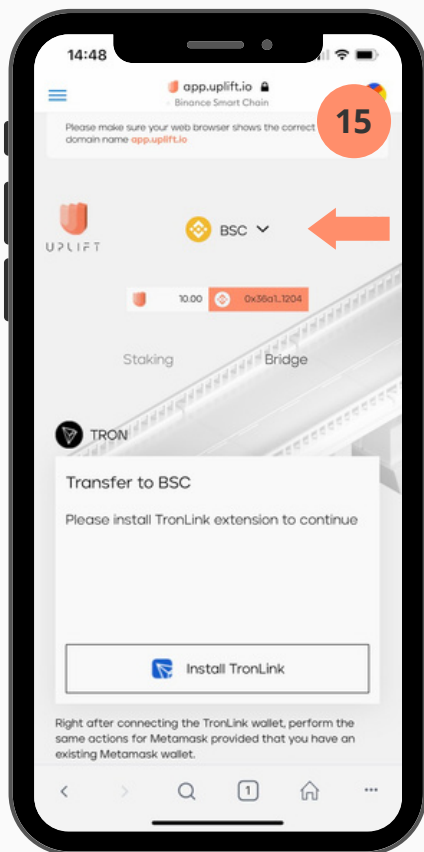

- Now we're going to Claim our \$LIFT Tokens.
- Click Navigation Menu ☰ (Top Left) & Open Browser.

- Copy this Address

<https://app.uplift.io/bridge>

- Paste on the Address Bar & Go.

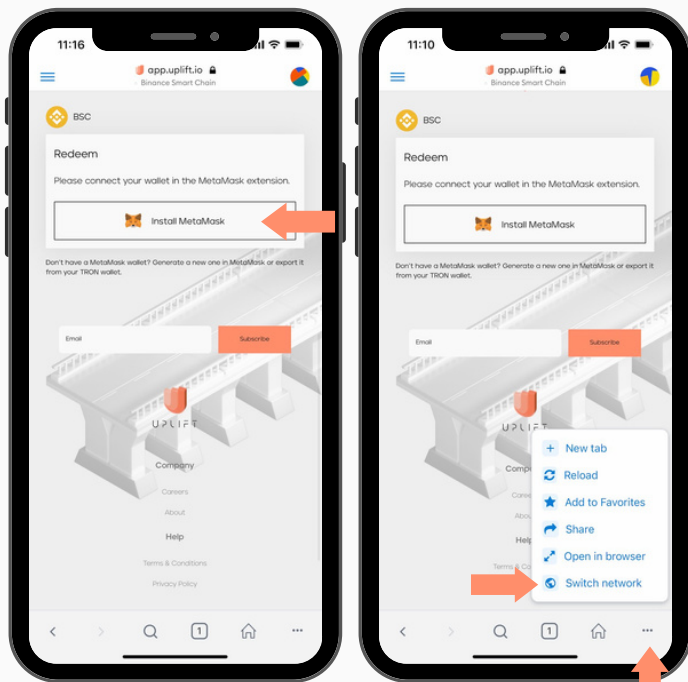

Keep
BSC
Chain &
Scroll
Down.

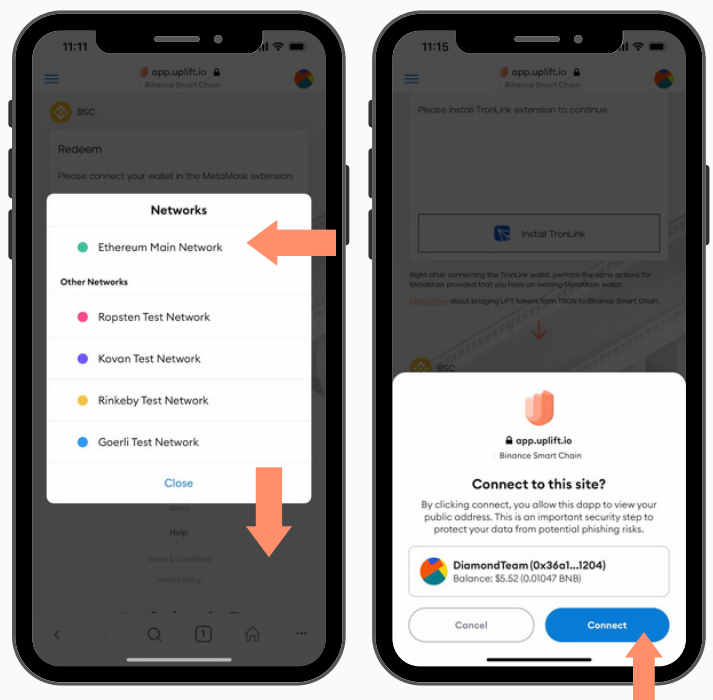

Connect
Metamask

Troubleshooting Guide (Most Popular Issue you have to face ;)

What if it says **Install Metamask** instead of **Connect Metamask**?

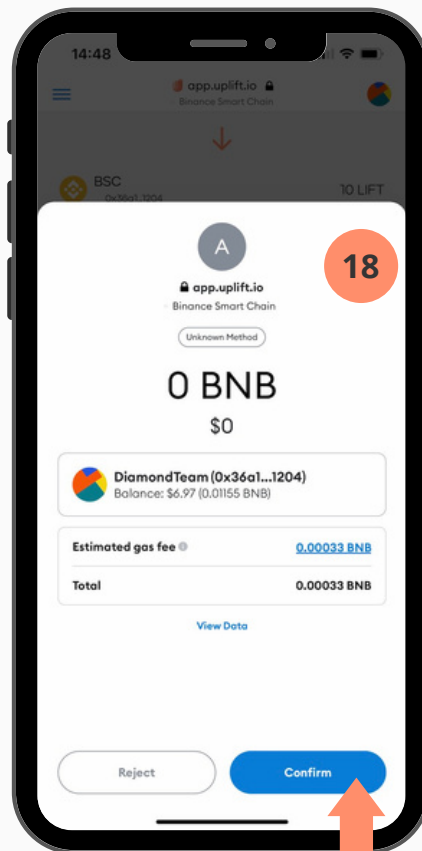

- Click **More Options** (Three Dots Icon - Bottom Right)
- Select **Switch Network**

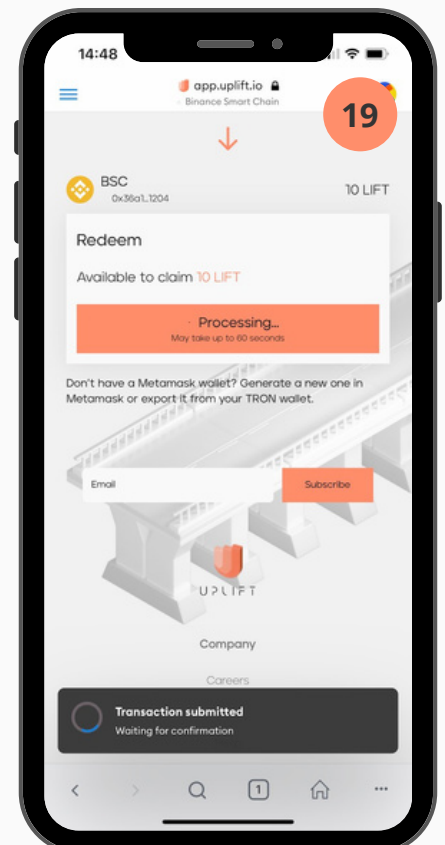

1. Select *Ethereum Main Network*.
2. Follow the same path, Scroll Down Switch back to *Binance Smart Chain*.
3. Click **Connect**.
4. **Close & Restart App**.

- Click **Claim**.

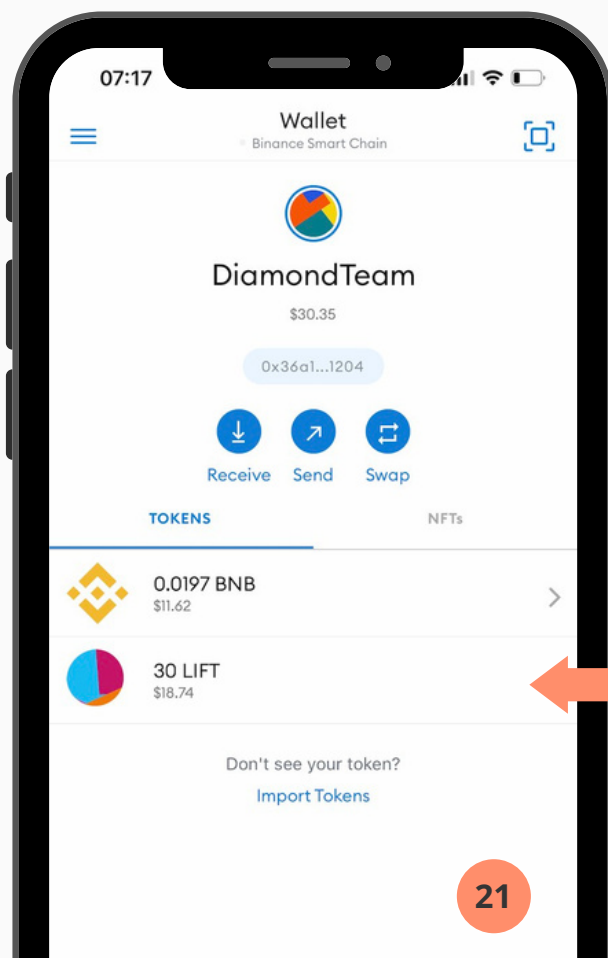

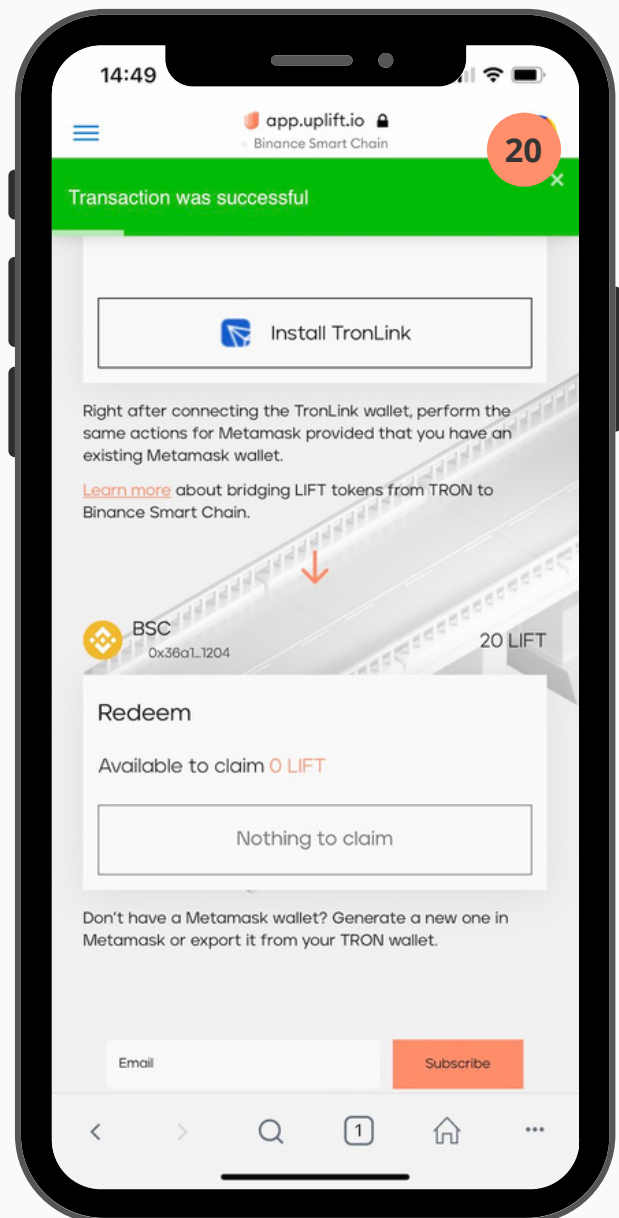

- **Confirm & Authorise.**

- Wait.

- Confirmation PopUp Message will appear after ~60 seconds.

- \$LIFT (BSC - BEP20) Tokens will show up in your Metamask Wallet.
- Now you can Stake them & get Rewarded.
